RE: Vehicle Identification Number Deciphering Information

I am in receipt of your letter dated March 31, 2014. I have reviewed the instructions for VIN deciphering. I do see that position 11 should designate the place where the VIN is affixed. I did not notice this before submitting VIN deciphering information in July of 2013. The VINs are affixed in Greenville, SC. This being the case the WMI listed on our VINs is correct.

I have attached to this letter a revised VIN deciphering table. Position 11 still uses the letter C, however, the new plant designation is Greenville, SC, USA.

Sincerely

Troy Shockley, President
